PROFESSIONAL EXPERIENCE

BMO Capital Markets

Sep. 2022 - Present

QA Engineer

Toronto, Canada

- Led and implemented **End-to-End** QA strategy for **0-to-1 products** by collaborating with senior leadership, client stakeholders, and cross-functional teams.
- Delivered **presentations** and **company-wide reports** on product releases and testing strategy to **directors** and **client facing teams**.
- Facilitated communication between engineering and non-technical stakeholders by translating **KPIs** into actionable insights during **Agile** ceremonies (Daily Scrums, Sprint Planning, Test Coverage Walkthrough and Demo presentations).
- Partnered with Product Managers to plan and maintain high-level traceability in **JIRA** for **Sanity**, **Regression**, and **Functional** cycles through User Stories, Test Cases, and Bugs for every release.
- Implemented a **performance test automation framework** with **DevOps**, streamlining reporting and reducing test cycle time by 2 days.

Disal

Jan. 2021 - Dec. 2021

Product Analyst

Sao Paulo, Brazil (Remote)

- Led **cross-functional development** with **Engineering** and **Design teams** to build a scalable **Web App** using **MEAN** stack (**MongoDB**, **Express**, **Angular**, **Node.js**).
- Collaborated with C-suite executives to plan product roadmap and **SDLC** strategy, producing **documentation** that translated business priorities into technical plans.
- Presented product insights to executives and cross-functional teams, **bridging engineering efforts with business priorities**.

Agenda BOA

Apr. 2019 - Sep. 2019

Software Engineer - Intern

Sao Paulo, Brazil

- Developed and optimized **iOS** mobile app features, improving user experience and app performance.
- Contributed to the development of a **Flutter** prototype integrated with **MongoDB** to migrate existing native mobile apps and integrate a Web version.
